

Addition & Subtraction - Answers

Answer Key

Section A: Multi-Step Problems

1. 114 ($245 + 189 = 434$, $434 - 320 = 114$)
2. 344 ($700 - 356$)
3. 400 ($275 + 125$)
4. 403 ($480 - 65 - 12$)
5. 325 ($500 - 175$)

Section B: Reasoning

1. 375 ($225 + 150$)
2. e.g. " $400 - 200 = 200$, then add back the 2 since 198 is 2 less than 200: $200 + 2 = 202$ "
3. 275 ($300 + 50 = 350$, $350 - 75 = 275$)
4. 250 ($600 - 150 - 200$)
5. Estimate: $300 + 200 = 500$. Exact: $297 + 198 = 495$
