

Plants

Bronze

These questions cover what plants need to grow, and the functions of roots, stems, leaves and flowers - part of the Year 3 science curriculum.

Name: _____ Date: _____

Section A: What Plants Need

1. Name three things a plant needs to grow well.

2. What happens to a plant if it gets no water?

3. Do all plants need the same amount of sunlight?

4. Why do plants need water?

5. What is the job of a plant's roots?

Section B: Parts of a Plant

1. What is the job of the stem?

2. What is the job of the leaves?

3. What grows into a fruit after a flower is pollinated?

4. Name one way seeds can travel to a new place.

5. Label these in order from bottom to top: flower, roots, stem.
