

Plants

Silver

These Silver questions extend plant knowledge to explaining functions and comparing conditions.

Name: _____ Date: _____

Section A: Plant Needs

1. Explain why plants need sunlight, not just water.

2. What might happen to a plant kept in a dark cupboard for two weeks?

3. Why do plants in a desert need less water than plants in a rainforest?

4. Explain the job of a plant's leaves in simple terms.

5. Why might overwatering a plant harm it, just like underwatering?

Section B: Plant Parts & Life Cycles

1. Explain, step by step, how a seed becomes a new plant.

2. Why do some seeds have "wings" or fluff attached to them?

3. What is pollination, in your own words?

4. Explain why bees are important for many plants.

5. What is the job of a flower's petals?
