

Rocks & Soils

Bronze

These questions cover comparing rocks, understanding fossils, and how soils are made - part of the Year 3 science curriculum.

Name: _____ Date: _____

Section A: Rocks

1. Name one rock that is hard.

2. Which is harder: chalk or granite?

3. What is a fossil?

4. Where might you find a fossil?

5. True or False: All rocks look and feel the same.

Section B: Soils

1. What is soil mostly made from?

2. Name one thing that lives in soil.

3. Why is soil important for plants?

4. What might happen if you mixed sand and clay together?

5. Give one way rocks slowly turn into soil over time.
