

These questions cover reading and interpreting pictograms, bar charts and tables, taught during Year 3. No calculators.

Name:

Date:

Section A: Reading Charts & Tables

1. Look at the bar chart of ice creams sold. Which flavour sold the most?

2. How many chocolate ice creams were sold?

3. What is the difference between vanilla and mint sales?

4. What is the total number of ice creams sold?

Section B: Comparing Data

1. A table shows book sales: Fiction 65, Non-fiction 38, Comics 22. How many books sold in total?

2. How many more fiction books were sold than comics?

3. Order the categories from most sold to least sold.

4. If 15 more comics were sold, how many would that be?
