

Stone Age to Iron Age Britain

Bronze

These questions cover how life in Britain changed across the Stone Age, Bronze Age, and Iron Age - a common Year 3 history topic, and often a child's first proper introduction to prehistory.

Name: _____ Date: _____

Section A: The Stone Age

1. What material were most early tools made from?

2. How did Stone Age people mostly find their food?

3. Where did Stone Age people often live before building homes?

4. Name one animal Stone Age people may have hunted.

5. What is the name for very old paintings found on cave walls?

Section B: Bronze Age & Iron Age

1. What two metals are mixed together to make bronze?

2. Why was bronze better than stone for making tools?

3. What metal gave the Iron Age its name?

4. Name one type of building Iron Age people built for defence.

5. Put these in the correct order: Iron Age, Stone Age, Bronze Age.
