

Addition & Subtraction - Answers

Answer Key

Section A: Multi-Step Problems

1. 3,525 ($1,875 + 1,650$)
2. £5,140 ($3,450 + 2,890 - 1,200$)
3. 4,410 ($5,600 - 2,340 + 1,150$)
4. 4,433 ($9,000 - 4,567$)
5. 6,000 ($3,655 + 2,345$)

Section B: Reasoning

1. 3,211 ($10,000 - 6,789$)
2. 6,250 ($3,750 + 2,500$)
3. 4,812 ($4,562 + 1,000 - 750$)
4. Estimate: $4,000 + 2,000 = 6,000$. Exact: $3,987 + 2,013 = 6,000$ (they happen to match exactly here)
5. Because the ones digits (9 and 9) are almost identical, so most columns cancel out, leaving a small difference
