

Angles & Shape

Bronze

These questions cover identifying and measuring angles, and recognising regular and irregular polygons - part of the Year 5 geometry curriculum.

Name: _____ Date: _____

Section A: Angles

1. What type of angle is smaller than 90° ? (acute, obtuse, or reflex)

2. What type of angle is bigger than 180° ?

3. How many degrees are in a right angle?

4. Angles on a straight line add up to how many degrees?

5. Angles around a point add up to how many degrees?

Section B: Shapes

1. Name a regular polygon with 4 equal sides.

2. How many sides does a hexagon have?

3. Is a rectangle a regular or irregular polygon? Explain why.

4. Name a 3D shape with exactly 6 flat faces.

5. How many faces does a triangular prism have?
