

Decimals & Percentages

Silver

These Silver questions extend decimal and percentage skills to slightly trickier calculations and money problems.

Name: _____ Date: _____

Section A: Decimals

1. Work out $5.6 + 3.75$.

2. Work out $9.2 - 4.65$.

3. Round 7.348 to one decimal place.

4. Order these, smallest first: 0.6, 0.45, 0.605

5. Write $\frac{3}{8}$ as a decimal.

Section B: Percentages

1. What is 20% of 150?

2. What is 75% of 40?

3. Write 0.6 as a percentage.

4. A jacket costing £60 is reduced by 30%. What is the new price?

5. If 40% of a class are boys and there are 12 boys, how many pupils are in the class?
